## SCATTERED THOUGHTS !

Dear Fellow Traveller,

We live in a day and time that pulls us in ten different directions at the one time. It is hard for families to even sit down to dinner together. This mobile society makes it difficult to put down roots. Family members are spread clear across the world. Some address this need for rootedness by researching their family origins through "Google". It is reassuring to see families getting together after a couple of years of "distancing" caused by the corona virus. On such occasions we need to retell the story to younger generations.

There is a well-known adage that says, 'those who do not know their history are doomed to relive it.' The importance of memory is that it gives us pause to reflect on all the blessings that are ours thanks to the sacrifices of those who have gone before us. We remember those who gave their lives that we might live in freedom. We watch with anxiousness the developments in the aggression of Russia for instance. It's vital not to forget the lessons of the past. I can think of no greater sacrifice than that of a young person who gives his or her life in service of their fellow human being. The gift of all that they could have offered in their lifetime is sacrificed to the "God of war". This is a terrible tragedy but very much a reality in parts of our world. Every effort must be made to resolve difference between countries and individual without resorting to violence. The life of every single person is valuable and special. Freedom is a wonderful gift.

As we celebrate the Feast of Pentecost - we pray that the gifts of the Spirit - wisdom, understanding, right judgement, fortitude, courage, knowledge, and wonder and awe in God's presence may flourish in our hearts.

Enjoy the long weekend

G.J.

Best wishes to all those doing exams over the next two weeks and to the third level students awaiting results
